### DIVIDENDS OF THE VANDERBILT LINES. Thursday, June 21-p. m.

The directors of the three Vanderbilt middle lines of railroads today met and declared dividends for the six months to end June 30. Estimated statements of the business for the six months also were presented. The several meetings were held one week earlier than usual: a satisfactory reason for which is that it suited the personal convenience of the directors of the several companies o meet this week rather than next week. The Lake Shore and Michigan Southern Company declared a dividend of 2 per cent, Michigan Central one of 2 per cent, and Canada Southern one of 1 1-4 per cent, all payable August 15.

LAKE SHORE AND MICHIGAN SOUTHERN.

The estimated statement of the Lake Shore and Michigan Southern Company shows net earnings for the current six months of \$1,542,935, equal to

the year, and had accumulated \$565,901 of undivided profits at the end of 1887, so that after deducting the deficiency of the last six months the remaining balance was \$378,401. The following pares the statements for six months of three

years: Six months to June 30 Gross sarnings Operating expenses	95,435,000	1887.	1888

"BEAR" DESPERATION SHOWN AGAIN.

"BEAR" DESPERATION SHOWN AGAIN.

Considering the kind of bosh with which speculative circles have been flooded during the last hree months, the foregoing exhibits remarkable contradictions. They mark the desperation which has and still does inspire "leading operators" in stocks. Time and again it has been sublished on "the authority" of some ordinary peculator that the Lake Shore Company would nave to reduce its next dividend, and that Michigan Ceneral and Canada Southern would pass heirs. The statements themselves are a sufficient maswer to the silly predictions. The same authorities had predicted a dividend on Rock Island 6.1 per cent and certainly not over 1 1.4 per cent. On the day they discovered that it would be 1 1.2 per cent, they, to break the force of a reduction of only 1.4 per cent, invented and seured the publication in the "bears" special organ of a fanciful and ridiculous story of dissussions, in the board of directors over the declaration of the dividend. They employed the best along at their hand, but that is so ignorant of Vall Street methods that the makeup of the story gave it itself away." It, on its face, presented its wun ludicrous lack of truth. This story furnished he Stock Exchange another opportunity to apply he statute relating to the manufacture and circulation of false reports calculated to affect the alues of securities, but the Stock Exchange is too husy trying to strangle the "little Exchange around the corner" to ouch any matters which might involve he integrity of its own members.

THE MARKET A STRONG ONE. THE MARKET A STRONG ONE.

THE MARKET A STRONG ONE.

To-day's market was strong all the way out. The market was narrow and subject to some uctuations. In one respect the average operators were all at sea, because the usual sources of aformation absolutely refused to tell how the ading operator stood in the market at any given it is not information—and only replied: "Get at "However, the market managed to record tansactions about equal to those of yesterday, with a large proportion of real business. It also made material advances which were practically mintained to the close. The stock loan market its morning reflected an addition to the "short" increst: stocks generally were in better demand for borrowing than they were yesterday. Yet the market has not broadened any during the last week. A fact which together with the fluctuations, such as they have been, show that the maket is heavily oversold. A small increase in thebuying demand, which prices now invite, will cause a "beer" panic and an advance in prices too spid to be healthy. That is the situation, and now buyers are feeling their way. The day's statements of the Vanderbilits, showing how false havebeen the current reports, is likely to precipitate an activity at any moment. cipitate an activity et any moment.

per field operations in the winter. Those who take this view do not deny the narrow limits now imposed upon speculation and they lay no claims to such gifts of prophecy as can "call the daily turns" of a market indusenced by gambling considerations or can even limit the extent to which depression bred of unlooked-for mining developments may extend. But they look with more confidence into the future for reasons which are partially recited above and they hold that chances for profitable investment lie on the side of purchases on the siumps rather than short sales on railles.

Yesterday's certificate market was on about the same scale of activity as Wednesday's. It was unstable around 74 cents and the West seemed disposed to sell, although the transactions were not on a largely significant scale. The Calhoun well beyond Bakerstown made a small flow and the deeper drilling of it is again postponed, possibly to allow bigger tankage to be created. The oil trade still fears that a new supply may be reached in this locality and the uncertainty of what it may expand to is enough in the present stagnation of speculation to give check to ventures. It is a fact that the developments in face West, which so far have not fulfilled the expectation of the bears, have influenced a decline that a big increase in production might warrant. A shart reaction is insvitable in case the expectations of a big pool are disappointed and it is even debatable whether the opening of such a pool would not find that it had exhausted its effect beforehand. One has to go back no further in history than Thorn Creek to find such an instance in the trade. The crude market closed at about bottom figures and wore an appearance of weakness.

November 55.1-2, and December 52.1-4 cents. Oats were 1.8 cent for September at 31.3.8 cents. There were sales of 500 tierces of lard for export, but the options tambied further downward, closing with losses of 11217 points, as

tollows: June 48 42, July 88 35, August \$5 67, September 48 42, October 88 40.

The receipts of flour and grain reported yesterday at New-York, Philadelphia, Editimore and Boston were as follows: Wheat, 80,755 bushels; corn. 73,821 bushels; oats, 61,684 bushels; total grain, 220,861 bushels; flour, 26,982 packages. At Chicago, Milwaukee and St. Louis the arrivals were: Wheat, 71,250 bushels; corn, 217,418 bushels; oats, 141,792 bushels; total grain, 450,400 bushels; flour, 18,942 barrels.

Chicago, June 21 (Special).—July opened at 80 7-8, and went almost at once to 80. It was at 79 5-8, and actually at 79 1-2 cents in some parts of the pit before there was of corn, 371 cars, although under the estimate, were large. Besides the big arrivals, there was heavy selling by the Gess, Strong & Co. party. The prices sold off 3-4 cents. July opened at 49 1.2, and touched 48 3-4. The close was 49. The open sales by the representatives of the buil cliques were the largest for any single day since the talk of their unloading began. The estimate for Friday, 330 cars, domponed the buil hopes some.
